Kobe

PD-6300~PD-6331

Our Kobe fixtures are extremely thick metal rings joined into a concentric donut shape by an elaborate interior superstructure that both binds and centers their ultimate positioning. The effect is a simplistic...almost exotic... fixture with a contemporary edge that moves it into the realm of classic modernism. The harsh tone of the metal ring is offset by the soft glow of the acrylic lens. The Kobe frame allows for some wonderful lamping options. Plenty of room for CFL and LED lamps and chips. Acrylic lenses can be multiple colors as can the metal finishes. Be aware these are heavy lights...prepare!
